One-for-one trendsetter TOMS has created a unique and quirky space in its flagship store on Abbot Kinney. Equal parts café and retail store, TOMS is a haven for hipsters looking to take a break from shopping and relax among feel-good, fair trade purchases.

Serving TOMS Roasting Co. coffee, baked goods and cold-pressed juices in the front of the store, customers can lounge comfortably on banquettes while browsing namesake footwear, eyeglasses and t-shirts nestled in and around the seating areas.

A good use of indoor/outdoor space, a quaint backyard area also sells fresh flowers and there's a nice patch of grass on which pooches can perch while someone inevitably strums a guitar nearby.

As TOMS proves, a hot spot built around social good is totally cool.
